

peter elliot architecture + urban design

practice profile

This is an established architectural and urban design practice having commenced in 1975. The Practice has a staff of 15 with Peter Elliott as Principal Director, Catherine Duggan as Senior Associate and Sean van der Velden, Geoffrey Barton and Jude Doyle as Associates.

As Principal, Peter Elliott oversees and directs all projects. In practices of this size it is possible for the Principal to maintain a close working relationship with the client at every stage of the process. Accordingly, this Practice has been able to maintain a high standard of design and delivery of quality contemporary architecture as is acknowledged by numerous architectural awards and published works.

The Practice now carries out a diverse range of work for government departments and agencies, secondary and tertiary education institutions, and other public authorities particularly in the inner urban context. Projects include, Spencer Street Footbridge, the Robert Clark Horticultural Centre, Ballarat Botanic Gardens, Observatory Gate, Royal Botanic Gardens Melbourne and RMIT university urban spaces project.

Refer to the Practice webpage for further Practice details:
