Tel: (03) 9654 0015

M.Arch (RMIT)
Master of Architecture with Distinction
RMIT University

B.Des (RMIT)
Bachelor of Architectural Design with Distinction
RMIT University

Construction Induction Training
Master Builders Association of Victoria

Daniel commenced work with Peter Elliott Architects over 10 years ago whilst studying architecture at RMIT University. In this time he has worked on a diverse range of projects in the practice that vary in typology, scale and complexity.

His experience covers all aspects of design and phases of a project. Daniel's technical knowledge and understanding of building construction are invaluable during the latter stages of a project.

Daniel enjoys the challenges of leading a multi-disciplinary project team and has most recently worked on a number of complex theatre projects within the practice requiring innovative design solutions and careful attention to detail to achieve successful project outcomes.
